

This blank form can guide self-motivated students toward their own skill development. You might think of it as an "inventory" of scales, 3rds, and arpeggios; in that case, it also becomes an excellent record-keeping device for the Teacher (as well as for the student). You can choose how to use the blank cells. I might recommend a **date** when the skill was demonstrated, or a simple **checkmark**, or perhaps **one line** (e.g. a "minus") when the skill was *attempted*, followed by a **second line** (a "plus") when the skill was successfully performed. I'd love to see this become an App-based form, or online option. Write to me if you have ideas. r200lina@gmail.com

C# Major - 7 #'s <i>A# Nat. Min.</i> <i>A# Harm. Min.</i> <i>A# Mel. Min.</i>																			

This is just one example of how the blank form can be used. I've entered numbers to show students which skills are "due" at the end of each year (in my opinion) for the average student. Of course, you would enter your own choices. The form may be used simply as a skills-based guidance template, or to help students prepare for auditions. Some Teachers may even prefer this for seating auditions/placement, or for Grading. Write to me if you'd like to see the full set (all instruments) of filled-in sheets. r200lina@gmail.com
